## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on 6/18/07 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 10/824,335 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

2. Claims 1-4, 6-12, and 14-21 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art does not disclose or suggest "switching means for switching a connection of the actuator from the driving circuit to the ejection failure detecting means after carrying out a droplet ejection operation by driving the actuator; wherein the ejection failure detecting means detects presence or absence of the ejection failure by comparing a normal count range of the reference pulses when a droplet is normally ejected by the driving of the actuator with a count value of the counter counted for the predetermined time period" in combination with the remaining claim elements set forth in claim 1 and its dependent claims.

4. Also, the prior art does not disclose or suggest "switching means for switching a connection of the actuator from the driving circuit to the ejection failure detecting means after carrying out a droplet ejection operation by driving the actuator; wherein the counter subtracts the number of reference pulses counted for the predetermined time period from a predetermined reference value, and the ejection failure detecting means

detects the ejection failure on the basis of a subtraction result" in combination with the remaining claim elements set forth in claim 8 and its dependent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
